WHAT IF YOU DECIDED TO
GET MARRIED HERE?

| 68 |

IN PARTICULAR

| 72 |

Love needs space and attention, something we have learned over many years of offering hospitality. This is because celebrating the feelings of two lovers, whatever their age, is a task that requires great care and continuous dedication. After all, the reason we're able to offer such a splendid range of choices and options for honeymoons and anniversaries is precisely because we know that each time is something special, that each of you is different. We know that getting married is meeting another person, and celebrating an anniversary is celebrating a meeting

| *that is still going on.* |

Here are all the ways you could wish for to create your experience so that it is as similar to you as possible. The rest is already here and waiting. The marvels of Gallura, its centuries of history, the gifts of its territory and its traditions to be discovered, its accessible and tangible nature, authentic hospitality and of course beaches for which there are not enough adjectives.

*All you have to do is browse,
and then fall in love with a journey.*

THE 5 STAR RESORTS

"5 stars" isn't enough for us. We've always described our 5 star resorts as "**5 star freedom**" and it's only when you really experience them that you understand why: the best in quality together with a preference for informality, all enveloped in a dream-like atmosphere which blends together with the greenery and the sea. Yet freedom also means choosing between different ways of experiencing it. We've called the first of these ways **Emotion**, and it offers everything you need for an experience that is impossible to forget, such as flavours, places, discoveries and surprises. The second we've called **Intense**, because in addition to all this we have added exclusive experiences and personalized ideas. But you can never have enough freedom, so you have the chance to discover our "**à la carte**" proposals, so you add to your experience. To make it even more special.

CAPO D'ORSO

Where everything is romantic. Where the day can begin with breakfast to the sound of a harp and end among centuries-old trees, on a terrace looking out at the night. Where every day you can choose between little bays with the purest and cleanest sea imaginable, a vintage sailing ship to take you to the islands of the La Maddalena Archipelago, solariums over the water, a canoe ride along the coast ... and when the evening comes, you can decide to have dinner at a restaurant on a platform on the surface of the water. Always free, always at the heart of your emotions.

When you tell yourself that Gallura is beautiful, you have to add that it's good.

We have chosen for you unrepeatably good taste experiences, guarded by rare people who care about doing things well.

VALLE DELL'ERICA

Open your eyes wide and be astonished as they take in the enchanted sight of a vast natural park surrounded by islands as valuable as jewels. A real dream, with seawater swimming pools, rooms with breathtaking panoramic views, little bays dedicated to you and nature trails that guide you through the scents and aromas of the Mediterranean. This is where we keep the most authentic version of Gallura along with its flavours, its most prized dishes and the delightful charm of a dinner on the beach, while the sea provides the soundtrack.

MARINEDDA

Come to us and feel good. Breathe in the harmony of a crystal-clear sea and the breathtaking beauty of the scenery that nature has given us. Discover new ways to feel good in the Thalasso Centre & SPA and enjoy the delights of sophisticated dishes, cuisine prepared with the maximum attention to detail, or play at getting lost among the isolated bays and little paths lost in the heart of nature. Or do all of these things together and make it the most romantic and unforgettable of holidays.

THE 4 STAR RESORTS

Four stars, four resorts and each has its own special light. **Cala di Falco** dazzles with its vitality, **Torreruja** shines with its sunsets, at **Le Dune** the fun never stops and **Cala di Lepre** is for athletes in love. We wanted them all to be different so we could give you all the solutions and, as always, all the freedom to imagine the holiday you want, choosing from Thalasso Centres to canoe trips, from entertainment to a trip into the past and its traditions. Do you want to accept the **Emotion** proposal, with many of Delphina's most memorable experiences, or would you rather have the pleasure of choosing the **à la carte** possibilities one by one? The pleasure of deciding is up to you. And let's not forget the delights that all our resorts have in common, like the pure white beaches and the Sardinian sea... In other words, an infinitely unspoilt nature that we have never wanted to change, as well as never losing sight of your emotions and presenting every couple with a selection of perfect days.

CALA DI FALCO

At the heart of the desire to do things. Close to the Costa Smeralda and all the entertainment it offers and near Cannigione Marina with its boat excursions and the village's traditional shops. You are in the ideal starting place for exploring the wonders of the La Maddalena Archipelago thanks to the Delphina Express, which is ready to set sail and take you to that particular paradise. Then in the evening, it will bring you back here, so you can enjoy a dinner experience overlooking a natural setting that will make your heart beat faster.

TORRERUJA

And then the sun sets. That's when you really understand, when you first catch sight of that artist's palette of colours, whether from the sunbathing platforms on the rocks, or from the white sandy beaches, or maybe from the restaurants overlooking the sea. And it comes back to you, when you are walking through the fishing village of Isola Rossa or while you are relaxing and enjoying the maximum of well-being in the Thalasso Centre. You don't know what "panoramic position" really means until you are here and you have seen it for yourself.

CALA DI LEPRE

Welcome lovers.

Especially if you also love sport and going on trips to discover a new area. Especially if you think that even a walk in nature or a boat trip can make you feel great. You are right next to the marvels of the La Maddalena Archipelago National Park, while amidst the Mediterranean macchia you will discover a wellness centre dedicated to making you feel good like never before. Ready? Get set, go!

LISTEN

Sweet or rugged, adventurous or surprising. There is always a little bit of Gallura to discover.

Check out our excursion programme: this is also a catalogue of new emotions.

LE DUNE

Isn't love fun?
Then take it where you can let it explode with joy, in the middle of a thousand opportunities for you to enjoy a holiday with real happiness. Take it with you as you go to a sailing centre with catamarans, windsurfing and canoes or to a yoga platform among the junipers, then let it choose from ten restaurants, six swimming pools, a wellness centre, or even just between sand dunes or a long semi-deserted beach. Let love have the pleasure of deciding, perhaps even from its room just a few metres from the sea.

LISTEN

WHAT IF...

What if you decided to get married here, in our resorts, saying yes between sun and sea? The **Delphina Wedding Team** can make that special day a unique experience, organizing and taking care of everything from the reception to the ceremony and giving you and those who love you a highly memorable event. You bring love, we bring all our experience.

The following pages have all the information you need about the different offers, gifts as well as letting you see the pleasure we have in hosting you.

| *Happy reading and have a good trip.* |

We are green
not because we say it but because we do it. Delphina only uses energy from renewable sources for its buildings and backs up its ecological behaviour with facts: every year we save 3,536 tons of CO2 and we do without 68,700 plastic bottles. But these are just two examples: all our practices and everything we do can be seen on the website in the "we are green" section. Solid ways in which to love, respect and defend a territory and then offer it to its visitors.
